

Patient Portal Registration

We are now able to offer our patients online access to summaries of office visits, lab results, prescription refills, appointments and billing.

We offer this service for your convenience. You can still reach us by phone for care questions, appointments, billing matters, and urgent after-hours care as you always have. But we hope you will find the portal a user-friendly, helpful way to keep your personal health information organized.

If you would like to use the patient portal, PRINT and COMPLETE this form and bring it with you to your appointment. You can also FAX the form to us (205.397.1340). **However, your Portal Record will not contain health information until your first visit after you register.** We will send an invitation email to the address you provide. Follow the simple instructions in that email to verify your identity and choose a
